Mr. Romain Fabre  
Head, Center of Excellence Market  
MOTUL S.A.  
119 Boulevard Felix Faure  
93300 AUBERVILLIERS – France

Dear Mr. Fabre,

We are pleased to make a product recommendation for the NISMO competition oil. After having carried out extensive tests on our state-of-the-art test rigs, on testing grounds and on the road, we can highly recommend the following **competition oil: type 2189E (75W-140)**.

Our decision is based on results generated by dismantling our test differential gears, which did not show any measurable signs of wear and tear even extreme loads. High-quality lubricants such as this produced by **Motul** are an integral part of our differential concept.

Motul 2189E is a first fill for Nissan GT-R and has got Nissan warranty approval.
